

Vacuum PRO

Body Shaping System

Price \$ 3900

Vacuum Pro equipment is designed for buttocks lifting and body shaping, among other treatments; with the highest power suction in the market to create faster results. Our new model includes protocols inside the software, and it can be accessible in the vacuum screen interface, this is very helpful for those who have not taken any training or have no experience on this therapy. Vacuum PRO includes four preset programs for buttock lifting and body shaping, and the user also can create new cycles of suction the way they want. The equipment has a key to turn the machine ON, which is a high-security feature. Vacuum Pro has a counter to measure the time has been working from day one. Another great feature is that Vacuum PRO is upgradeable, that means you can add more functions to the same equipment without even send the machine to us. The new services you can add is Cavitation and Radio Frequency anytime in the future for only \$ 2800 more.

What is in the box:

- 1 Pair of Buttock Cups (large or Medium)
- 1 Knuckle Cup
- 1 Y Hose
- 1 Main Hose
- 1 extra Filter
- 2 keys
- 1 cleaning cups brush
- 1 pen with a stylus to touch the screen
- 1 power cable

Vacuum PRO

with Cold and Hot Therapy

Body Shaping System

Vacuum Pro with Cold and Hot features, this equipment is exclusively designed for buttocks lifting and body shaping, (nevertheless you can also do other tasks) with the highest power suction in the market to create faster results. Our new model includes protocols inside the software, and it can be accessible in the vacuum screen interface, this is very helpful for those who have not taken any training or have no experience on this therapy. Another great new feature is the cold and hot probes which are useful to improve the results significantly on the treatment. Cold therapy helps in tightening the skin, and hot treatment will help to open pores and burn fat. Vacuum PRO includes four preset programs for buttock lifting and body shaping, and the user also can create new cycles of suction the way they want. The equipment has a key to turn the machine ON, which is a high-security feature. Vacuum Pro has a counter to measure the time has been working from day one. Another great feature is that Vacuum PRO is upgradeable, that means you can add more functions to the same equipment without even send the machine to us. The new services you can add is Cavitation and Radio Frequency anytime in the future for only \$ 2800 more.
